"Not having to pay around \$200 for an urgent care visit or medication..."

– Lacey

"When I needed to schedule a visit for primary care, I immediately thought of Nice. My company had just rolled it out, and I wanted to give it a try. I logged in, scheduled a visit, and was able to get an appointment right away.

During the call, the provider walked me through how to treat my symptoms and prescribed medication I could pick up at the pharmacy – with \$0 out-of-pocket cost.

Not having to pay around \$200 for an urgent care visit or medication definitely eased my mind. It was simple, convenient, and stress-free.

Will definitely be using Nice again!"

"I'm generally healthy, but traditional clinic visits feel slow and inconvenient. With Nice, I booked a virtual visit that fit my schedule and got a solid plan right away. What surprised me was how the follow-ups worked. Nice did an X-ray and blood draw at my house. The setup was quick, it barely disrupted my day, and the results came back fast with clear notes. It was the most efficient care experience I have had."

"Nice did an X-ray and blood draw at my house."

"...I received the medication I needed within two hours."

– Rachel

"I had a sudden and severe allergy attack shortly after signing up for Nice Healthcare. I was unable to drive or work, and honestly, I was a bit panicked. Thankfully, I was able to get an appointment with Nice Healthcare in under an hour and a half.

The provider I met with was incredibly thorough – taking the time to go through my full health history and answer every question I had. I never felt rushed, which was really reassuring during a stressful time.

Best of all, I received the medication I needed within two hours. The entire process was quick, efficient, and surprisingly pleasant given the circumstances. I'm extremely grateful for the care I received and wouldn't hesitate to recommend Nice Healthcare to others."
